Location: Kozhikode, Kerala, India

Professional Summary

Electronics and Communication Engineer with a strong background in Full Stack Development. Proficient in Python Django, web technologies. Passionate about problem-solving, circuit debugging, and embedded systems.

Work Experience

Python Full Stack Developer Intern (Oct 2024 – Present) | Softronics Learning and working with DSA, DBMS, C Programming, Python Django, Bootstrap, HTML, CSS, MySQL, JavaScript, React. **Intern (Jul 2023 – Aug 2023) | Prominent**

Assisted in the design, development, testing, and quality control of electrical components.

Intern (May 2023 – Jun 2023) | Bharat Sanchar Nigam Limited (BSNL)

Gained hands-on experience in telecommunications and network management.

Education

B.Tech - Electronics and Communication Engineering
APJ Abdul Kalam Technological University | 2024

Technical Skills

Programming Languages:

- C, Embedded C, Python, Java Script

Web Development:

- HTML, CSS, React, Bootstrap, Django

Databases:

- MySQL, SqlLite3

Computer Science Concepts:

- Data Structures and Algorithms (DSA), Object-Oriented Programming (OOPs)

Electronics & Embedded Systems:

- Circuit Debugging, Soldering, Microcontrollers

Design Tools:

- Canva
- Figma

Soft Skills

- Problem-Solving & Critical Thinking
- Adaptability & Quick Learning
- Teamwork & Collaboration
- Time Management
- Effective Communication

Projects

IoT-Based Temperature-Controlled Smart Fan
Sewer Patrol Robot
Crime Line
Fragranzia
Skill Connect

Certifications & Achievements

- Python Django Full Stack Development - Course Completion
- Internship Certificates from BSNL & Prominent

Languages Spoken

- English (Fluent)
- Malayalam (Fluent)
- Hindi (Basic)

Interests & Hobbies

- Technology & Innovation
- Problem-Solving & Coding
- IoT & Embedded Systems
- Designing with Canva
